

Report for Glastonbury Town Council meeting
December 8th 2020
By County Councillor Terry Napper

Glastonbury should be ashamed of itself to let our great town be used by invited people of no fixed abode reside in Glastonbury, from Northover to Beckery, Bretenoux to Tor View. All the roads around the Tor and Kennards Moor obstructed with caravans and transit type living vehicles littering the highways and Byways. Our high street has been taken over. We give out free food, water and toilet facilities that are being abused. We cannot carry on supporting the travelling community as we are. We can be compassionate in different ways that are being delivered at present. The first sign should come from the Town Council to rally the District, County and Police to the cause, just look at the report from our local Police Force tonight with immense social problems. We can and should denounce the amount of anti social behaviour and lawlessness that is festering in Glastonbury.

Wishing you all a very happy and peaceful Christmas and a happy, healthy and hopefully a normal 2021.

Terry Napper County councillor.
