

Report for Glastonbury Town Council
Meeting 12th April 2022.
From County Councillor Terry Napper

Dear All,

I cannot describe my disappointment at not being able to join you at the Council meeting tonight as I have another meeting to attend. For the last 10 years I have really enjoyed representing Glastonbury (where my birth was registered) at Somerset County initially with my great friend Alderman Alan Gloak MBE and recently with Liz. The diversity of Glastonbury makes the job very varied and interesting and I am afraid that the old adage "that you cannot please all of the people all of the time" really means something. The Councillors faces will be changing at the important table and the ones sat on the side will also change I wish all of them the very best and if I can add something to their role my door will always be open with a welcome. I guess we will all meet upon some way in the near future.
